

Auto Finger Joint Line without Pre-Press System Series

Layout

TRIMMING, SCORING AND SHAPING MECHANISM (RIGHT SHAPER)

The trimming and top/bottom scoring saw blade cuts the right end of the work pieces without tearing problems. The right shaper cutter produces finger-shaper tenors accurately. All motors have individual motor control.

PNEUMATIC INJECTION GLUING MECHANISM

The automatic gluing mechanism applies the precise glue dosage and is easily cleaned by a patented pneumatic injection system

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

NEW EFFICIENT GLUE TANK

The new glue tank system has recycled glue function for cost saving

SAFETYGUARD OPTIONAL

The finger assembler is equipped with a full length safety panel at the product outfeed side, providing safely protection for the operator

TWO-STEP SEQUENCE ASSEMBLING

You can continue feeding-multiple step cut-off when the press is synchronized
