20T/H pig and chicken feed pellet production line

Currently, we have more than 90 engineers specialized in machinery research and development, feed processing technology, civil engineering, electrical automation, feed nutrition ventilation and dust collection, steel construction and vertical silo construction. Independently now our engineer has the ability to set up complete animal feed project, general aquatic feed project, pet feed project, forage feed project, premixed feed project, concentrated feed project, pheromone biological feed project, vinasse pellet production turn key project.
