PRY-920 Automatic Die-cutting and Creasing Machine

Introduction

This model is a high automatic die-cutting machine. All the main parts use the well-known international brand. Gripper bars with high intensity are applicable to all kinds of cardboard, paperboard and corrugated paper. Other parts adopt intermittent mechanism with high precision, air clutch, pneumatic locking mechanism, PLC. The display shows the various machine's working information such as working speed, pieces of paper processed, total running time, etc. It is easy to eliminate errors according to the display of trouble shooting. Transducer is adopted to control the main motor in achieving infinitely variable speed transmission. It is the best choice for the printing factory.

Technical data

Model	PRY-920
Max paper size	920 × 670mm
Max Die-cutting size	870 × 640mm
Min Paper Size	400 × 320mm
Max Working Pressure	200N/cm ²
Max Die-cutting Speed	8000pc/hour
Paper processed grammage	1. cardboard : 80-2000g/m ² 2. Corrugated Paper : <5mm
Power	12kw
Weight	11t
Dimensions	4500 × 1870 × 2000mm
