

PAPER CUTTING MACHINE

No. 0201

Jogger

Specifications				
Model	Unit	JPA-1	JPA-2	JPA-3
Table size	cm	72x87	90x115	113x145
Ream height	cm	16.5	16.5	16.5
Table height	cm	88-98	88-98	88-98
Installation width (B)	cm	127	155	158
Installation depth (A)	cm	117	129	157
Installation height	cm	187.5	187.5	187.5
Net weight	kg	450	550	730

STRUCTURE FEATURES

This machine is specially designed for preparing material for cutting machine.

This ensure the cutting is continued while new material is prepared and the cutting accuracy, lower the production rock.

The precise alignment improves the cutting accuracy and makes the fundament for the quality of final production.

The cutting preparations improves the cutting efficiency by 50%.

Printing Height: 2 cm

No. 0202

LIFTER

Specifications				
Model	Unit	LT-1	LT-2	LT-3
Pallet size max.	cm	60x80	80x120	105x145
Stoke up to	cm	5.89	5.89	5.89
Carrying capacity	kg/1bs	450/990	1000/2200	1000/2200
Power consumption	Kw	2.25	2.25	2.25
Space required pallet	cm	102x105	144x130	170x155
Net Weight	kg	450/990	550/1210	680/1496
Platforms (inside dimension)	cm	62x84	84x127	109x152
Height	cm	150(196)	150(196)	150(196)

STRUCTURE FEATURES

Lifting paper can pile up and down.

It has features of human orient, frindly operation interface.

Cutting material is lifted automatically.

So operators can move the cutting material to the jogger or cutter at a proper height, which improve the cutting efficiency by 10%.

No. 0203

ZXRDT-9301020Flexo wire side-stitching line

Specifications	
Model	ZXRDT-930/1020
Reel width	680-930/1020mm
Printing speed	30-250m/min
Max. EB. Making Speed	45times/min
Printing-cutting length	300-670mm
Cutting length	250-450mm
Counting and collecting	6-50sheets
Binging size	125-225mm
Total Power	32Kw
Net Weight	17000/17500kg

STRUCTURE FEATURES

ZXRDT-930/1020Flexo wire side-stitching line is developed by our company, it based om our flexo Ruing machine series and absorbed foreign machine, s advanced technology. After reel-release the web. double side Flexo printing. cross cut to single sheet. counting and stratifying. auto covering. wire stitching. folding. back planing.cross cutting. then. comes out the finishod product of notebook. this line is ideal machine for producing wire side stitching notebook.

The main key parts of this machine are imported from foreign specialist m
