

PAPER CUTTING MACHINE

No. 0215

HSCJ1400/1700series Hob Type Servo-driven Computer Paper cutter machine.

Specifications

Model	HSCJ1400	HSCJ1700
Reference weight of cutting-paper	the up knife cut reciprocally, the down knife is fixed	
Model of cutting paper	60-550g	
Max. diameter of paper	1650(65")Max.	
Max. pieces of paper	1400mm(55")Max.	1700mm(67")Max.
Cutting accuracy	the cutting length is below 1000mm $\pm$ 0.5mm	
	cutting length is over 1000mm%0.1	
Max. curring length	450-1450mm	
Max. cutting speed	200cuts/min	
Max. cutting meter spped	200m/min	

DESCRIPTION

HSCJ1400/1700 series Hob Type Servo-driven Computer Paper Cutter is an economy paper cutter which is developed by our company integrating the advanced technology at home and abroad, hence an innovation and perfection product. This machine is driven by AC servo motor Motion controller made in UK is equipped and of quick and stable paper cutting. It is equipped with German precision bearing and cutter, hence high cutting precision and long service life. The gentle-touch PLC interface is fine and convenient. The ration designed recurvate frame can guarantee flatness to paper. Process the apparatus with paper product that this machine is a kind of high benefit with high efficiency.

No. 0216

ZXZD-600 Microcomputer Crosscutting machine

Specifications

Cutting width	40-600mm
Cutting length	20-1200mm
Cutting speed	10-180pcs/min
Cutting accuracy	$\pm$ 0.4mm
Power of main motor	0.75kw
Power supply	220V 50Hz
Weight	850kg

DESCRIPTION

1. The machine is used for slitting gold cards, sliver cards, adhesive, plastic, non-woven, and transverse shearing plastic films. paperboard. medical pads and beer superscript as well.
2. The machine employs microcomputer optical controller in positioning, state digital display, length panel controller. It can automatically adjust its running speed, automatically alarm at countdown, and count and protect upon power-off.

main features:

Frequency speed governor, stable performance, convenient length setting, location with high precision and even tension.

No. 0217

ZXSH-1400 Microcomputer Sheet Crosscutting machine

Specifications

Max. cutting width	1400mm
Work speed	30-160pcs/min
Paper Thickness	70-500g
Cutting length	500-2000mm (if the paper thickness is 80g. The length should within 500mm)
Total power	2.2+1.5Kw
Package dimension	5450x1620x1200mm
