

PAPER CUTTING MACHINE

No. 0218

ZXC1-2 computer control high speed slitting machine

DESCRIPTION

ZXC1-2 computer control high speed slitting machine is universal slitting machine, high configuration, high speed This is universal slitting machine, it's apply for roller thin film, paper, aluminum foil, it's high configuration, high speed, rolling tidiness.

No. 0219

ZX-1700 computer control high speed slitting machine

DESCRIPTION

This is high speed slitting machine, it's apply for roll materials BOPP, PET, CPP, PVC, aluminum foil, paper and recombination film, it high speed, stacking even, easy operation.

Specifications	
Width of materials	70-1700mm
Slitting width	50-170mm
Slitting speed	300m/minutes
Max. unrolling diameter	800mm
Max. rolling diameter	2x500-600mm
Unrolling roller	No
Rolling roller	Slippage roller
Diameter of paper core	3mm/6mm
Main control system	PLC system + human-machine interface
Tension control way	Automatic taper control
Drive mode	Vector frequency
Guiding system	China made photo electricity
Slitting way	Direct cutting knife, round cutting knife
Power	3 phase/alternating current 380V/50Hz
Weight	3.5T-5T

Specifications	
Width of materials	700-1700mm
Slitting width	50-1700mm
Slitting speed	350m/minutes
Max. holding roll diameter	700mm
Max. stacking roll diameter	2x500mm
Holding roll	Pneumatic roller
Stacking roll	Pneumatic roller
Diameter of paper core	3mm
Main control system	PLC system + human-machine interface
Tension control way	Automatic taper control
Drive mode	Vector frequency
Guiding system	China made photo electricity
Slitting way	Straight cutting knife (fixed type, changeable type) round cutting knife (fixed type, changeable type)
Power	3 phase/alternating current 380V/50Hz
Weight	2.8T-3T

Specifications		
Model	1100	1400
Cutting sheet maximum width	1100mm	1400mm
Cutting sheet maximum diameter	Φ600mm	Φ600mm
Cutting sheet width	30-1000mm	30-1000mm
Cutting speed	5-160m/min	5-160m/min
Correcting error	<±0.5mm	<±0.5mm
Total power	3kw	3kw
The device weight	1200kg	1500kg
Dimension	1.110x20x1.4m	1.11x2.3x1.4m

No. 0220

Vertical Cutter

DESCRIPTION

Vertical slitting cutter is used to cut BOPP apply to the aircraft, PET, CPP, CPE, PVC, aluminum foil, paper and other material

Purpose:

BOPP apply to the aircraft, PET, CPP, CPE, aluminum foil, paper and other materials sub-volumes, in the production process in accordance with the needs of the material trimming, cutting, etc.; aircraft with an area of a small area, the advantages in power consumption.

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

Performance and features:

1. This is a vertical plane of the machine, retractable rolls around in the machine can be.
2. Independent control of the screen, operation more flexible and convenient.
3. Automatically take corrective volumes, photoelectric eye tracking transparent material applied to the edge and color.
4. Vol release tension by magnetic brake control.
5. Winding using magnetic particle clutch control.
