

PRY-1100B+PRY-50B Automatic Paper Bag Making Machine

Introduction

PRY-1100B automatic paper bag making machine is characterized by functions of automatic delivery of creased paper, line aligning, gluing, tube formation, impressing and bag tube output. It adopts water-soluble cold glue and hot-melt glue which do no harm to the environment. (It can also work with spray glue system.) It adopts imported electrical parts of worldwide brand, for example, Siemens, Schneider, NSK, SUNX, NSK LJK NACHI, Teco and so on. This handbag machine is ideal equipment for manufacturing high-standard handbags.

PRY-50B hand bag bottom gluing machine features a continuous function of automatic delivery of manual-folded bag tube, gluing, impressing and finished bag output. This machine is equipped with four spray guns and the users can adjust the thickness of glue and the gluing position according to requirement.

(PRY-1100B and PRY-50-B are combined together when used to make a complete paper handbag.)

Paper application

Brown paper, art paper, white board paper, white cardboard, etc (including film adhesive paper and laminated paper).

Technical data

Model	PRY-1100B	PRY-50B
Max. Paper size (LxW)	1100x600mm	
Min. Paper size (LxW)	600x380mm	
Paper grammage	100-350g/m ²	
Working speed	100 bag/min	70 bag/min
Glue	water-soluble glue/hot-melt	Hot-melt
Bottom thickness	55-180mm	60-180mm
Total Power	10kw	3.5kw
Dimension (LxWxH)	9500x1830x1650mm	4800x1220x1320
Weight	4t	1.5t
