No. 1112

ZLK-1300B Cardboard Notching Machine

SPECIFICATIONS

Model	ZLK-1300B
Complete Machine Power	8.5kw/380V
Most Numbers of Slots	12
Grooving Depth	1-6mm
Smallest Distance Between the Slots	10mm
Specifications of Equipment	1300mm
Max. Equipment of Board	1200x1200mm
Min. Equipment of Board	130x130mm
Transferring Speed	3-10m/min
Overall Dimension	1630x1420x1250mm
Weight	1800kg

DESCRIPTION

Cardboard notching machine is suitable for notching various types and models of gift bags and paperboard bags to make a beautiful appearance, upgrading the products to meet an ideal effect.

1. Tightly complete machine makes it a beautiful appearance with stainless steel cover that is in conformity with the related standards Products to meet an ideal effect.

1. Tightly complete machine makes it a beautiful appearance with stainless steel cover that is in conformity with the related standards for packaging.

2. It uses converter to regulate velocity and the impression roller is fixed, and it equipped with worktable shift regulate.

3. It uses two-way cutlery entry device to finish notching the paperboard bag, color bag and octagonal bag simultaneously.

4. Reverse notching results in filling of the paperboard dust onto the worktable. Then the suction machine or absorber will suction them into the suck to have a good working environment.
