

UV COATING MACHINE

No. 0601

ZXL-1000/1200A Fully Automatic UV Coating Machine

DESCRIPTION

It's electricity with pneumatic which can be used for both thick and thin paper, Automatic delivery, stream feeder, Speed

SPECIFICATIONS

Model	Model ZXL-1200AUV	Model ZXL-1000AUV
Max sheet size	787×1092mm	590 x 882mm
Min sheet size	140×406mm	340 x 406mm
Max coating width	1150mm	950mm
Paper thickness	80-600/gm ² (equipped with wind-knife)	
Max feeder speed	8000sheets/hours 4000sheet/hours for the thin paper	
Dimension	12250×1960×1600mm	
Total weight	6500kg	
Total power	55kw	53kw

No. 0602

Inno-C Three head paper Varnishing machine

SPECIFICATIONS

Model	RRL-1000/1200/1400B
Max.coating width	950/1150/1350mm
Paper thickness	80-600g/m ² 200-600g/m ²
Max.Working speed	6000pcs/ hour thin paper 3000pcs/hour
Conveyor speed	25-60m/min
Overall dimension	13550×(1760/1960/2160)×1600mm
Weight of machine	5500/6000/6500kg
Total power	54kw

No. 0603

ZXUV-1200 UV coating machine

SPECIFICATIONS

Model	ZXUV-1000	ZXUV-1200
Breadth of polishing	900mm	1100mm
Scope of paper	80-600g	80-600g
Speed	0-45m/min	0-45m/min
Infrared ray power	15kw	15kw
Ultraviolet radiation power	16kw	16kw
Electrical heat	1.5kw	1.5kw
Overall dimensions	6800×1580×1580	6800×1780×1580
Overall weight	1.3T	1.5T

STURTURE FEATURES

It is an essential machine for printing and fine processing of post-printing with the world advanced know how used and the features of the national trade combined.

The lightness of various color printings of packing and decoration has been notably raised and the colorful appearance is thus retained.

It is simple to operate with one machine two uses and easy maintain, especially suitable for printing houses in large, medium and small scales

Scope:

It is used for digital printing, color and short run printing, water base and solvent ink spray paint, water-proof, oil-proof, smooth, wear-proof, beautiful color, strengthen efficiency and improve durables.

Advantages:

Operation is easy and convenient.

The laminating oil liquid can be added automatically and used in cycles.

Break the power supply automatically when over-heated and release heat with high speed, emergency stop bottom is installed.

The ultraviolet keep the dry apart and drying safe and fast.

Double platform, infrared and ultraviolet can be used for the machine.

Flowing smooth well and coating evenly

Small location

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
