

SMALL PRESSURE PLATE

The small wood pressure plate is applied when cutting thick work pieces. The large and small pressure plates are easy to change.

VARIABLE FEED SPEED

The wide range of feed speeds (6.7 to 35 meters per minute) make the machine ideal for cutting all types of wood material. Front mounted speed regulation wheel provides operation convenience

NEWLY DESIGNED LINK CHAIN

- The special link chain features no-gap running, which prevents the dangers of operator's hands being clamped and chips falling into the machine. The link chain is manufactured from durable cast iron, providing high breaking strength over 24000kgs
- The feed rail is manufactured from alloy steel, hardened to over HRC 50 degrees for maximum durability and wear resistance

COMPREHENSIVE ANTI- KICKBAK FINGERS

The machine is equipped with 3 rows of anti- kickback fingers at the in feed end, combined with a side guard. Providing comprehensive safely protection for the operator during operation
