Energy Pellet Making Line

The line can reach 2000-3000 tons capacity per shift year, power of pellet mill is 75kw. This line combined with rotary screener, air-flow drier, mixer, pellet mill, cooler, and screener and so on. This flow chart is continuous and reasonable, each machine works efficiently.

XGJ-560
biomass pellet
manufacturing line

The line can reach 3000-5000 tons capacity shift year, power of pellet mill is 90kw. This line combined with sawdust mill, rotary screener, rotary dryer, mixer and screener. It is continuous and reasonable, easy to operate, maintenance simple, high efficiency and low power consumption

XGJ-580
biomass pellet
manufacturing line

The line can reach 10000-20000 tons capacity shift year, power of pellet mill is 160kw. This line combined with grass cutter, hammer mill, mixer, materials silo, pellet mill, cooler, screener, packing machine and so on. It is continuous and reasonable, high efficiency, and room takes less.
