

Full Automatic Soft Facial Tissue Single Packing Machine

ZD-C31

FEATURES

This machine is suitable for three-dimensional outer packaging of plastic film of soft facial paper, napkin paper, and square paper. It is also suitable for the three-dimensional packaging of plastic film of other quadrilateral objects. High automatization, high specialization, high efficiency and less trouble. The functions of compact structure, beautiful design, easy operation, and easy maintenance. It is an ideal automatic paper towel packaging equipment with moisture protection, durability, product added value, product grade and product packaging quality.

Technical Parameters:

Item	Parameters
Packing speed	80-100 bags/min
Change packing film	About 10minutes (Depend on proficiency)
Packing size	L: 100~210mm W: 90~110mmH: 40~100mm
Machine size (L×W×H)	4900×3100×1900mm
Weight	2400KG
Packing material	CPP double sided heat sealing film Thickness: 0.035~0.05mm
Max diameter of packing film	420mm
paper core diameter of packing film	76mm Comply with international standards
Packaging film pattern printing allows position error	Vertical ±2mm, Horizontal ±2mm
Power	380V 50Hz
Power of main motor	1.5KW
Heating power	5KW (Side seal and end seal Heating)
Total power	10KW
Air pressure	0.6MPa

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
