large screen & keyboard and mouse contro

MODEL 1

T5 extends from the design of traditional machine, so the width of tendons & mortise is adjustable. Within the working area 700mm, the machine can process wood materials of 700 mm wide. If the wood is narrower, the internal function of model 1 can separate the working area into 3 parts: feed-in three sets of wood materials at the same time.

MODEL 2

VARIATION MODEL. The size of tendons & mortises are arranged irregularly for special join

MODEL 4

SQUARE MODEL. After changing square cutter, square tendons & mortises are processed by model 2. The size are also adjustable easil

MODEL 3

LONG STRIP MODEL. Tendons & mortises of long strip are processed in this model. In this model. Adjust the sizes easily by humanity operation interfac
