

This series is designed for compressing aluminum-cans, tin cans, paper-buckets and numerous other similar materials. PLC control system with compression, feeding capability completes the feeding and output action automatically in a smooth manner, significantly benefit to reduce the cost of transportation and storage.

Note:
Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

This series is suitable for compressing wood shavings, granules, powder and other material greatly increasing its efficiency and cost-effectiveness in transportation and storage. This product provides quality and efficiency to maximize productivity. Including features of PLC control system, fully automatic operation, and horizontal continuous output design. Hydraulically driven with stable performance, equipped with automatic feeding system, capable to interact with material feeding system to achieve unmanned production.

型号 Model	压缩力 Hydraulic Power (Ton)	进料口尺寸 Feed Opening Size (L*W) mm	包块尺寸 Bale Size (L*W*H) mm	进料/马力 Feeder (KG/Hp)	包块重量 Bale Weight (KG)	打包能力 Capacity (Tons/hr)
JPY-T60W	60	900*430	430*280*(150-250)	22/30	15-20	0.5-1
JPY-T80W	80	1000*450	450*300*(150-250)	22/30	18-25	0.8-1.5
JPY-T100W	100	1100*500	500*330*(200-300)	30/40	20-32	1-1.8
JPY-T120W	120	1200*550	550*400*(250-350)	37/50	30-40	1.5-2.5

The above parameters can be customized to customer's requirement.
