

# Double Crank Press Machine

## The Typical "Three Highs" of The Set Point Series

High rigidity, high precision, high reliability, sixty years of professional manufacturing of press equipment, a leader in technological progress, breakthroughs in the version of traditional punching, no matter whether it is used or in terms of perfection, users use beautiful images to enhance the added value of customers products

### Standard Equipments

1. Wet clutch (world)
2. Hydraulic overload protecting pump
3. Auto lubrication system
4. Manual lubrication system
5. Balance cylinders for slide and upper die
6. Digital die height indicator
7. Joint for miss-feeding
8. Touch screen
9. Electronic crankshaft angle indicator
10. Rotary cam controller
11. Rotary encoder
12. movable operation panel
13. Die height adjusted motor
14. PLC-Programmable logical controller
15. Air source quick connector
16. Foundation bolts
17. Air blowing device

### Standard Equipments

1. Light curtain
2. Foot pedal
3. Die or piston cushion
4. Die quick change
5. Automatic feeding the output shaft
6. Inverter
7. Absorbing pads
8. Knock out device
