

## DOUBLE LOCATION FROM CYLINDER WAX MACHINE

MORE&gt;&gt;

Nozzle lift adopts hydraulic drag. Under the control of the program controller can choose two pay mould work alternately.

Electrical control has manual and automatic dual function. Simple operation, stable process parameters to perform.

Using high and low pressure set technology. Make reasonable hydraulic system energy little more stable performance Safe and reliable.

Automatic double location from cylinder wax machine

product feature &gt;

manual and automatic dual function &gt;

Wax mould pressure: variable pressure control &gt;

Equipment attached injection mould system &gt;
