

CNC Plasma Cutting Potong Plat Logam Otomatis

Control system:

F2300A
10.4 inch 800 * 600 high resolution 16 million colors color high brightness LCD screen

THC(torch height controller):

F1628
Simple operation strong anti-interference high sensitivity long service life.

Precision linear rail:

Taiwan HIWIN linear guide strong and stable .

Lifting station:

Lifting device for aluminum finishing Longer life, higher precision, more sensitive transmission

CONTROL CABINET:

Numerical control cabinet of waterproof spray painting thickened cold rolled plate.

Machine body:
Heavy laser body Seiko production of CNC machining

X, Y axis dust cover
Comprehensive protection against dust

Note :
Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
