

QLW - 871

High-speed Water Jet Loom

Dynamic combination of technology and Material represents fresh feeling of weaving at high speed.

Product Features

QLW-871 series high speed heavy duty water jet loom is optimization of body and motion parts of heavy duty water jet loom, where beating system is improved, vibration and noise are reduced, while body rigidity and stability are enhanced. It is more suitable to weave fabric at high speed.

Reed space (mm)	RPM (r/min)
1900	800
2300	700
2800	650
3400	450

PT. Valtekindo Global Intertek

QLW - 851L

Series Single Nozzle Super Wide Water Jet Loom

Product Features

QLW-851L series high speed heavy duty water jet loom is optimization of body and motion parts of heavy duty water jet loom, where beating system is improved, vibration and noise are reduced, while body rigidity and stability are enhanced. It is more suitable to weave fabric at high speed.

Reed Space : 340, 350, 360, 380, 420cm
