

Mesin Pembuat Masker KF-94 (Fish Mask)

Production Description

KF94 fish type (willow leaf type) one-to-one mask machine is suitable for (Korea) KF94 standard/(Japan) DS2 standard mask production automatic machine. According to the different raw materials used, the masks produced can reach different standard.

The whole machine is composed of the material rack part, the upper nose, the shape welding part, the folding forming part, the shape cutter part, the turning part, the material dividing part, the ear strap part, and the stacking part; it adopts servo motor, air cylinder, and ultrasonic welding. The instrument completes production.

Product Parameters

Output	100-120 Pcs/min
Specification	200mmx80mm
Applicable Materials	PP Non-Woven Composite Fiber
Layer of Cloth	3-4/Layers
Machine Weight	1500Kg
Machine Size	6000x3700x1800mm
Control System	PLC (Programmable Logic Controller) Touch Screen
Compressed-Air	≥0.5~0.7MPa
Operator	1/One Person
Welding for Ear Loop	15kHz
Total Electric Consumption	15kW
Voltage	220V, 50/60Hz
Voltage Tolerance	±5%

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
