

BK SERIES

BAND KNIFE CUTTING MACHINE

PRODUCT FEATURES:

There are ordinary working table and air cushion working table with BK series Band Type Cutting Machine. The customer should choose one kind of working table according to the cutting materials and other requirement. This series cutting machine are widely used in garment, case & bag, toys, shoes industries. Suitable for cutting knitting materials, synthetic fabric, sponge, leather, etc.

THE MAIN PERFORMANCES & PARAMETERS:

Model	BK - 500	BK - 700	BK - 900	BK - 1200
(mm) size of working	1100 x 1400	1200 x 1400	1500 x 1800	1500 x 2400
(mm) Max. cutting capacity	180			
(mm) Length of arm	500	700	900	1200
(mm) Size of band knife	3040 x 10 x 0.45	3500 x 10 x 0.45	3860 x 10 x 0.45	4440 x 10 x 0.45
Motor	380V 550V 1400r/min			
Fan	380V 550V 2800r/min			

SBK SERIES

BAND KNIFE CUTTING MACHINE

SBK series is modified from BK series and modelled on KM series Cutting Machine, Japan, but has own patents. SBK series have air cushion working table only. Oversized LCD control panel. The Air pump is made by China - Germany joint venture. The power supply, 750W. It has the function: Step - less speed regulation of frequency conversion. It can convert the power supply 220V to power of wind is one and half times of the BK series. The motor has big power supply, 750W. It has the function: step - less speed regulation of 380V, and customers can adjust the cutting speed according to different cutting materials. This series cutting machine is widely used in garment & bag, toys, shoes industries. Suitable for cutting knitting materials, synthetic fabric, sponge, leather, etc.

THE MAIN PERFORMANCES & PARAMETERS:

Model	BK - 500	BK - 700	BK - 900	BK - 1200
(mm) size of working	1100 x 1400	1200 x 1400	1500 x 1800	1500 x 2400
(mm) Max. cutting capacity	180			
(mm) Length of arm	500	700	900	1200
(mm) Size of band knife	3040 x 10 x 0.45	3500 x 10 x 0.45	3860 x 10 x 0.45	4440 x 10 x 0.45
Motor	380V 550V 1400r/min			
Fan	380V 550V 2800r/min

BOILER SERIES/STEAM GENERATOR SERIES

PRODUCT FEATURES:

Our Steam Generator is made with advanced technology. It has high security and performance. Equipped with water tank, high pressure water pump, automatic water level control device, relief valve, pressure controller, durable electrical heated tube and water gauge. Each welding line of Steam Generator should pass the X-ray check. It proves to have reliability with the examination and confirmation from Special Equipment Supervision & Inspection Dept. China.

THE MAIN PERFORMANCES & PARAMETERS:

Parameter/Model	DLD6- 0.4 - 1(2)	DLD12 (9)- 0.4 - (2)
Power supply	220V.1PH.50Hz 380V.3PH.50Hz	380V.3PH.50Hz
Heating Power (kw)	6	12 (9)
Volume (L)	16	16.1
Operation pressure (MPa)	0.4	0.4
Steam output (kg/h)	9	17 (13)
Starting time (min)	15	12 (19)
Dimension (mm)	680 x 490 x 980 (Sonde) 680 x 405 x 1122 (Floating ball)	635 x 500 x 980 (Sonde) 630 x 380 x 1200 (Floating ball)

HD-500RS

HD - 500RS Water Softener is an ion exchange softener, adopts the most advanced flow rate/time computer controlled system, operation and regeneration process are automatically controlled. Incoming hard water passes through the tank of containing high - capacity ion exchange resin beads supersaturated with sodium. The calcium and magnesium ions in the water attach to the resin beads, replacing the sodium, which is released into the water. The softened water is then distributed for use. So as to make no fouling forming and attaching to the container or boiler. Greatly improve the service life of the boiler and its working efficiency. HD - 500RS has the following characteristic: setting the backwashing intervals, where by multiple runs backwashing time, set the interval numbers according to the water use level of the boiler, set the size of flow rate through the water softener.
