Basic parameters:

Effective volume	500 L
Main shaft rotation speed	14 r/min
Power	2.2 kw
Dimension	Φ 1100 mm*140 mm
Weight	1280 kg

This machine is a container for storing chocolate syrup after melted by chocolate conch. The chocolate mess needs to have a rated constant temperature during the process, using this chocolate kettlemix the chocolate material in order to make it blended homogeneously and heated uniformly. The chocolate mess and oil would not separate from each other, it also has functions of deaeration, deodorization, duble elimination and
