

## Precision Sliding Table Saw MJ45B

### The use and scope of the machine tool:

Suitable for veneers, particleboard, medium density fiberboard, plywood, various wood-based panels. at the same time, it can cut plastic plates, bakelite, PVC and other materials, the saw cut is highly smooth and flat. Simple operation, plus accurate and high precision is a precision panel sawing equipment that is indispensable for the manufacture of panel furniture. It is also an indispensable equipment for building decoration.

### Note :

Due to keeping innovation,  
the specification and  
Machine pictures or color  
are subject to alteration  
without notice!

### Technical Data

| Model                     | MJ45B                |
|---------------------------|----------------------|
| Max. cutting length       | 2800mm/3000mm/3200mm |
| Max. cutting thickness    | 70mm                 |
| Saw blade tilt            | 0-45°                |
| Main saw blade size       | Φ305xΦ30mm           |
| Scoring saw blade size    | Φ120xΦ20mm           |
| Main saw spindle speed    | 4000/5000rpm         |
| Scoring saw spindle speed | 9000r/min            |
| Main saw motor power      | 5.5kw                |
| Scoring saw motor power   | 1.1kw                |
| Total power               | 6.6kw                |
| Dust outlet diameter      | Φ100x1               |
| Weight                    | 850kg                |
| Overall dimensions        | 3450x3050x1150mm     |
