Feature Description :

1. Micro Pieza printing technology. It adopts Epson DX5.0 print head, 8x180 nozzles, which realizes the high printing precision 1440 DPI
2. Waving Printing Technology: The unique Two dimensional intelligent Feather and Wave Feather function perfectly clear up the BANDING in printing process and enhance the excellent quality.
3. With USB plug and play transmission interface, the transmission speed reaches up to 480M/s.
4. VSDT Changeable PL Technology, 3.5 PL min and 27 PL max, perfect quality.
5. Various print modes for you to choose to enjoy the faster and the more high-precision printing quality.
6. Equipped with the most advanced intelligent print head cleaning and moisturizing devices, the printer provides safe and convenient print head cleaning and maintaining function, making operation and maintenance more convenient.
7. Banding Select function for printing. Any parts of your picture can be printed as you please without using the Photoshop
8. The Cleaning part of the print head is designed with the original Japanese parts.
