

ZHJY-6B

HJY-6B CUP PRINTING MACHINE

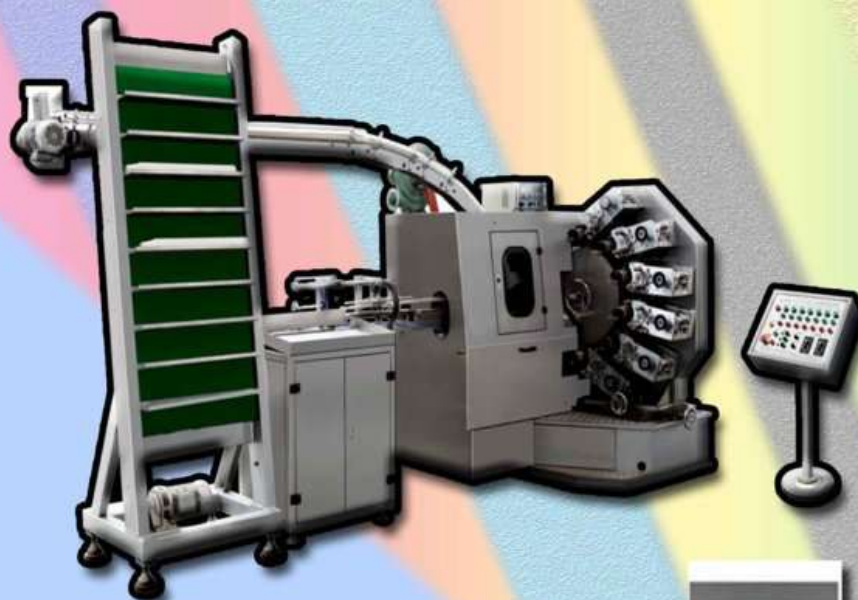

SGS

Features :

Well Proven color heads, based on decades of manufacturing experience, Six color heads each provided with eight distribution rollers.
Sharp print results with two form rollers on each color head.
Easy access to product handling areas and print areas.
Optimum product feeding with separate screw feeder motor.
Graphic operation panel for easy machine-control.
Belt feeder with pressure control.
Corona pretreatment with easily adjustable electrodes.
Quick change mandrel disc assembly.
Mandrel rotation control for all around pretreatment and curling.
High powered 'curling on mandrel' UV lamp system with stand by mode.

Applications :

We adopt advanced technology and make considerable innovations on design, manufacturing and accessories for ZHJY-6B Printing machine, ensuring flexible, convenient and stable and reliable operation, function and maintenance.

This machine uses for printing the plastic cups, bowls and other containers which the shape is conical.

The specific design for special demand can be made according to requirement. Such as : Printing size, and the colors!

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

Technical Specification :

Min./Max. Product height	40-180mm
Min./Max. Rim Diameter	40-140mm
Max. Printing height	120mm
Min. Printing height	30mm
Printing Taper	12°
Printing Speed	5000-12000(pcs/hour)
Total Power	18Kw
Weight	4 ton
Dimension	4000x2200x2000mm
