

FK300 无轴大版筒轮转机

FK300 intermittent large cylinder rotary presses

VGI

基本特点

1. 印刷速度更快，更稳定
2. 自动纠偏装置，开卷送纸带张力控制
3. 版筒加大至 $\Phi 133.50\text{mm}$ ，间歇式最大跳距可以达到 340mm
4. 在触摸屏控制墨量，供墨更精细稳定，操作简单

Key Features

1. Printing faster and more stable
2. Automatic web guide, unwinding with tension control.
3. The plate cylinder increases to $\Phi 133.50\text{mm}$, intermittent maximum jumping distance reaches 340mm
4. You can control the ink volume directly on the touch screen, makes the ink transfer more accurate, more stable, easier to operate.

人性化触摸屏
HMI Touch Screen

油墨控制系统
Ink System

机械参数 Technical parameters

机型	Model	FK300
印刷速度	Printing speed	200RPM
印刷色数	Printing Color	2-10 Colors
全轮转印刷面积	Max area of Full Rotary printing	424*280mm
间歇式最大印刷面积	Max area of intermittent printing	360*280mm
间歇式最小印刷面积	Min area of intermittent printing	50*30mm
走料宽度范围	Width range of web	50--300mm
单座UV功率	Power of single UV dryer	5Kw/unit
电源	Power supply	3 phase 380V
总功率	Total power	15Kw(EX. UV dryers)
主机外形尺寸	Main size	10500mm×1600mm×1850mm (L×W×H)
机器重量	Weight	About 7.7t

注：随着印刷长度的变化，机器极限速度也随之变化。*外形、工艺如有变动，恕不另行通知。
NOTE: As the length of the printing changes, so does the max. speed of the machine in the future. Appearance, process, change without prior notice.
