

FL350 数码标签印刷机印后处理设备 Intermittent post-printing equipment for digital label printing machine

VGI

基本特点

机器构造：放卷单元，收卷单元，冷烫单元，光油单元，圆刀模切单元，UV灯等

- 1.可以一次性完成冷烫，上光油，模切等工序，是数码标签印刷机的理想配套印后处理设备
- 2.带自动纠偏，高速，稳定
- 3.可以根据客户需要配置不同单元

Key Features

This equipment is composed of unwinder, rewinder, cold foil stamping unit, varnishing unit, rotary die cutting unit, UV drying unit etc.

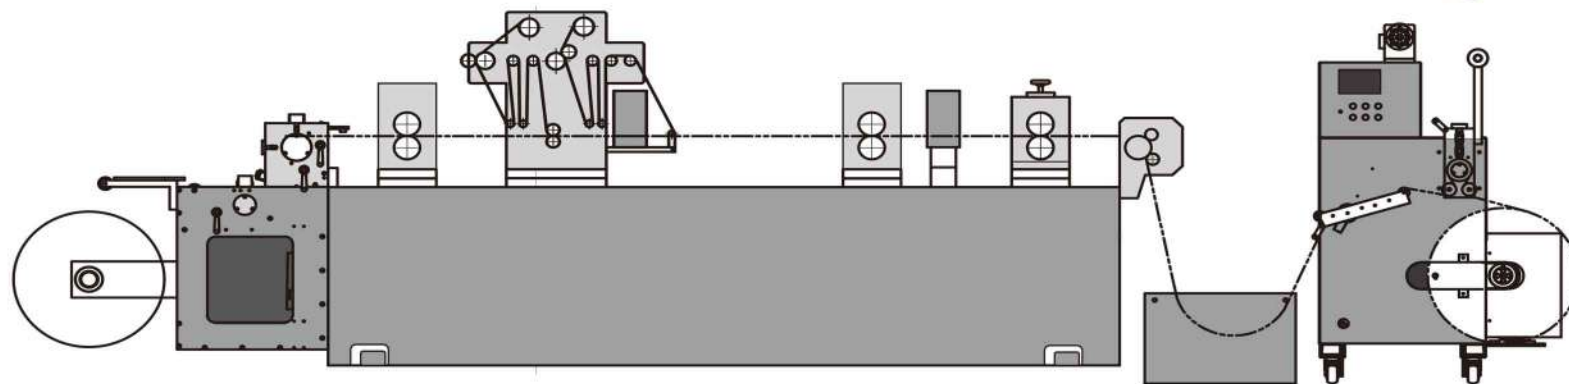

- 1.This equipment can process cold foil stamping, varnishing and die cutting etc at one time, which is ideal choice for matching digital label printing machines.
- 2.Equipped with web guider, high speed, stable operation.
- 3.We can equip different units as per customers' specific requirements .

机械参数 Technical parameters

机型	Model	FL300
最大材料宽度	Max. web width	350mm
最大处理宽度	Max.process width	330mm
最大处理长度	Max. process length	360mm
最大速度	Max. speed	12000pcs/h
最大放卷直径	Max. unwinding diameter	600mm
最大收卷直径	Max. rewinding diameter	600mm
电压	Rated voltage	380V
总功率	Total power	22.15kw
单座UV功率	Power of single UV dryer	5kw
机器尺寸	Machine dimension	6150*1500*1480mm
机器重量	Weight	5000kgs

注：随着印刷长度的变化，机器极限速度也随之变化。*外形、工艺如有变动，恕不另行通知；

NOTE: As the length of the printing changes, so does the max.speed of the machine in the future. Appearance, process, change without prior notice.

磁性圆刀模切座
Rotary die cutting unit

丝印单元
Silk screen printing unit
