

HFT - CUTTER CUT ROLL INTO SHEET

Note :

Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

Working cutting width	800mm,1300mm, 1600mm
Working cutting length	200-1300mm
Working cutting thickness	100 to 350g per square meters
Machinery speed	50 to 75m per min
Max unwinding diameter	1600 mm
Cutting precision	0.3MM
Machinery weight	3800Kg
Total power	8kw
Equipment overall dimension	6500x 2300x 1700mm

APPLICATION

Cutting Double-side / kraft / masking / foam / PET / PVC / cloth tape

FEATURES:

- 1、 High cutting efficiency with single knife & double shafts;
- 2、 Ball spindle and rail driven by step (servo) motor. Cutting width can be randomly set up with high precision
- 3、 PLC programmable (human-machine interaction system optional) control for easy operation and maintenance
- 4、 Knife feeding controlled hydraulically, automatic spray for blade lubrication, smooth cutting ends
- 5、 Cutting by circular knife, main shaft frequency convertible and stepless adjustable, adaptable to various materials
- 6、 New air clip for paper tube saving
