

Inkjet printer

Main technical parameter:

Letter lattice:

7×5,8×8,8×10,12×12,16×10,16×16

Printable lines:

1-2 lines (adjustable)

Height of letter:

2-10mm

Speed of print:

2m/s(7×5 format is quickest)

Print direction:

Omni-directional

Printable target:

paper, plastic, metal, PVC, PPR, Glass, Wood and Rubber etc.

Print function:

Serial number, batch number, product counting display and print.

Date program real time clock automatic change display and show.

Information prolong and repeat storage print The letter can be overstriking and widen from one nine times The height and width can be adjustable.

Viscosity control:

self-regulation

Consumables:

automatic

In put display:

Backlighting LCD display, screen saver(imported), Chinese and English input

Communication interface:

RS-232 interface

Environment temperature:

0-45℃, 10-90%RH(non-condensing)

Voltage:

220±20VAC

Power:

100VA

Grade of protection:

IP55

Overall dimension:

500×422×300mm

Spray head:

200×39×20mm

Control panel:

Touch type tectorial membrane button

Material :

Stainless steel

Pipe length:

3m

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
