For our mobile phone printer, here I highly recommend our 3rd generation UPGRADED Iphone printer as follows:

The new iphone printer can print on any kinds of designs on Iphone shell. It is so easy for Pupils, no need special training.

Special RIP software:

1. accurately control the ink volume when printer work, so that the printed image exactly as same as the designs prepared
2. freely adjust the brightness, contrast, ect in RIP accroding to your request.
