CIL-SP-B

Full-automatic high-speed rewinding and perforated toilet paper machine

Description:

CIL-SP-B this equipment is to perforate and cut the raw paper into various sizes according to the requested. The finished product is neat, in good order and with equally tension. It has the feature of compact structure, easy and stable operation, less electricity consumption and covers a small area of 8.4 m². The highest production speed is 150-200mm/min. This equipment is adjustable to meet the requested finished product. This model is the ideal equipment for paper making factory and paper processing factory.

This equipment can process raw paper of 1.2m/1.75m/1.95m/2.15m/2.35m/2.55m/2.75m in width. There are two types of this model: one is ordinary type, it used one embossed unit for 2-ply paper, and the other is dot-by-dot type, it used embossed units respectively for each one.

This machine is consist of stand of raw material, paper conveying unit, embossing unit, perforating unit, rolling unit, electricity control and cutting system. The production process is unrolling-embossing-perforating-rolling-cutting.

主要技术参数 Main Technical Parameters		1500mm	1750mm	1950mm	2150mm	2350mm	2550mm	2750mm
设备型号 (Model)		1500B	1750B	1950B	2150B	2350B	2550B	2750B
设备长度 (mm) (Machine Length)		12000	17500	19500	21500	23500	25500	27500
设备宽度 (mm) (Machine Width)		1200	1750	1950	2150	2350	2550	2750
设备重量 (kg) (Machine Weight)		12000	17500	19500	21500	23500	25500	27500
设备功率 (kW) (Machine Power)		120	175	195	215	235	255	275
设备速度 (mm/min) (Machine Speed)		150	175	195	215	235	255	275
设备噪音 (dB) (Machine Noise)		120	175	195	215	235	255	275
设备温度 (°C) (Machine Temperature)		120	175	195	215	235	255	275
设备湿度 (%) (Machine Humidity)		120	175	195	215	235	255	275
设备压力 (MPa) (Machine Pressure)		120	175	195	215	235	255	275
设备流量 (m³/h) (Machine Flow)		120	175	195	215	235	255	275
设备效率 (%) (Machine Efficiency)		120	175	195	215	235	255	275
设备寿命 (h) (Machine Life)		120	175	195	215	235	255	275
设备维护 (h) (Machine Maintenance)		120	175	195	215	235	255	275
设备安全 (h) (Machine Safety)		120	175	195	215	235	255	275
设备环保 (h) (Machine Environment)		120	175	195	215	235	255	275
设备节能 (h) (Machine Energy Saving)		120	175	195	215	235	255	275
设备其他 (h) (Machine Others)		120	175	195	215	235	255	275

Main Function Features:

1. PLC (computer) control production, degree of full-automatic of production process is high, the function of machine is complete, and production efficiency is high.
2. Load and change the core, spray glue, seal can be done without stop the machine. When changing the core, the machine will slow the speed and up the speed automatically.
3. When change the core to rewind, it will be tight first and then loose, to avoid the core loose.
4. Equipped with automatic alarm to indicate filling up of core pipe. The machine will be automatically stopped when there is no core pipes.
5. When raw material broken, the machine will stop automatically.
6. Each raw material unroll separately, equip with tension control.
7. Easy to adjust in order to suitable different paper core.
8. There is tail after the finished product sealed with glue, easy to use.
9. There is pre-tensioned jack to load the raw material on machine.

Note:

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
