

Full - Automatic Heel Lasting Machine

YT - 860

Note :

Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

The machine is suitable for counter lasting of shoes of various textures including leather, PU and patent leather

FEATURES

1. It is provided with fine tuning device of lasting height so that it can precisely determine heel height. It adopts hydraulic control of stable performance and will not be easy to break the heels.
2. Tight backstay can extend, stretch and last, and wrinkle smoothing backstay can also be used.
3. Support can rise up or down during lasting to reduce the friction of lasting surface and so it will not break the counter lasting and even quick - wear leather can be used.
4. Heel can move up or down by pressure when backstay is tied up after wiper cutting. After hammering, it can wrap stitches without manual buffing, which can save manpower and increase the production volume.

TECHNICAL PARAMETERS

Power	Voltage	Output	N.W	Package Weight	Machine Dimensions	Package Dimensions
2kW	380V	2000Pairs/8hrs	330kg	400kg	1150x750x1450(mm)	1300x850x1600(mm)
