

CLM Folding Machine

- Unique model, national patent
- Intelligent LCD touch screen operation control system
- High-end technology, folding more beautifully

Large LCD Touch Screen

Imported Photoelectric Sensor

Imported bearing to ensure long life of equipment

The Main Technical Characteristics

- Two horizontal and three vertical function, fold square cotton fabric such as sheet, bedding bag, tablecloth, mouth cloth, etc.
- Intelligent LCD touch screen control system, English display, more than 30 programs to choose from.
- Equipped with photoelectric detection system and speed system, controlling speed of cloth transmission, measuring the size of cloth accurately and folding.
- Two sets of independent drive motor is controlled by frequency inverter, the folding speed is in 50/min, folding 1000 sheets every minute.
- High efficiency and less labor if running with Ironing machine.
- Diagnosis function and safety protection system, easy to operation and maintain.
- Anti-static function improves reliability and stability of machine.
- All components like light, electric, bearing and frequency inverter are all imported from Germany and Japan, ensuring long time trouble-free running of machines.

Model	Unit	ZD-3000V	ZD-3300V
Max. folding width	mm	3000	3300
Max. folding layers	Number of times/layer	5/32	5/32
Max. folding speed	m/min	50	50
Rated voltage	V/Hz	AC380/50	AC380/50
Motor power	KW	1.87	1.87
Inlet air pipe size	mm	Φ 10	Φ 10
Lowest inlet pressure	MPa	0.7	0.7
Gas consumption	m ³ /h	12	12
Length	mm	4264	4460
Width	mm	2829	2960
Height	mm	1770	1750
Overall weight	kg	1800	1800

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!
