

Fully Automatic Tumble Dryer

CLM Fully Automatic Tumble Dryer

- High work efficiency
- More stable performance
- More convenient operation
- New environment protection quality

Plush collector (Patent)

Welding-free transmission structure

High-power radiator

Main Technical Characteristics:

- Microprocessor computer controlled, English display, easy operation.
- High-power radiator, warming fast, high heating efficiency.
- Large clothes feeding gate, easy to load and unload clothes. Large plush collecting net to ensure no air-ducting blockage and smooth air flow all the time, improves greatly the drying efficiency.
- Cold wind circulation to ensure no wrinkle and deformation of clothes.
- Heating: electric, gas, steam
