

Main Technology Parameters(Example of 7G)

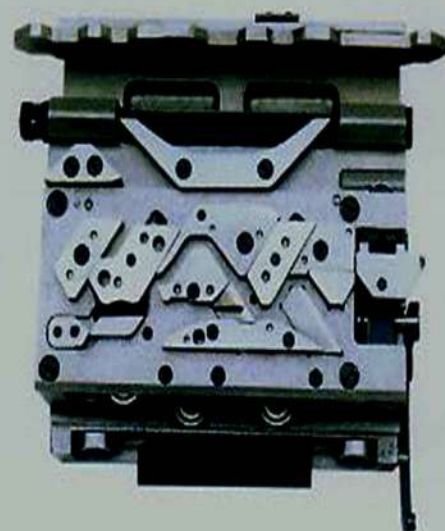

Gauge	7GM/L, L2.10GM/L, 10 GS/M, 13GM/L
Output/Set	120 pairs/8hour(about 600g/dozen)
Control Sets	12-18 (Set/person)
Voltage, Power	(Three-phase Or single-phase)220V, 250W)
Dimension	1230x680x1700mm(LxWxH)
Weight	250(kg)

SJT2000 type series glove knitting machine regards sinker knitting as principle, controlled by computer, adopts good quality material and exquisite process technology, is collocated by component of computer box and electrical equipment. This machine adopts various material, knits whole-finger type, half-finger type, Ingot-finger type, labour gloves and magic gloves automatically and its technology indexes can compare beauty with overseas advanced machine.

Main Character:

- Whole-process Computer Control, Keyboard Operation And Textile Dimension Design.
- Operation Is Convenient, Personal Control Ratio Is High And Labour Intensity Is Low.
- Adopting Frequency Conversion And Running Smoothly.
- Inlaid Neilsbed, Sedimentation-piece Device And Making Textile More Elastic And Comfortable.
- Double Color And Air-spraying Device And Making Textile More Slap-up.
- Automatical Stop Device Of Thread-break, Count And Electrical Machinery Overload And Reducing Knitting Damage.
- Electromagnet over-temperature protection,short circuit protection,to ensure the normal operation of computer security.
- Adopting Pump Oil-providing Device And Keeping Good Lubricate Character.

EQUIPMENT INTRODUCTION
