

JS 204-J

FEATURES:

1.Compact carriage :

JS204-J features a completely new carriage system which is 20% smaller and 30% lighter than it's predecessor. This design yields quicker and more responsive carriage and increased productivity, all while minimizing structural stress in the machine for increased durability.

2.Sinker knit system:

With this system, it offers products that are superior in stretch and strength as well as featuring excellent conformity to the shape of hands, which is vital for performing precision work.
