

Mesin Rajut Sarung Tangan Komputer Otomatis

Feature:

1. Adopt CORTEXT-M4-32 bits Micro controller , full control machine running , to reduce machines' fault rate . Operation panel with 7 inch Blue-Ray LCD touch screen controller , USB copy output , simple and convenient .
2. The lightweight ultra-small and ultra-thin machine head can reduce the operating load, reduce the inertia impact, thus achieving high-speed rotation, high-speed operation, saving power consumption of more than 30%
3. Servo motor with belt drive , change the machine head itinerary , efficient and stable ,improve more than 30% output .
4. All sizes knitting , stepping advancing motor to control sub-finger system , 1 key to control stitch holder ,cutter press location , change glove size freely .
5. Stepping advancing motor density system to realize every line every part different knitting density ,rich knitting technology.
6. Stepping advancing motor cutter control system ,hook yarn ,cut yarn and put yarn in any place .
7. Needle selection drum use screw linkage , to make sure front and back needle position ,to reduce maintenance rate .
8. Stepping motor elastic yarn giving yarn system, computer control wrist size ,giving yarn average .
9. Intelligent oil supply system , lubricate friction position anytime .
10. Broken fingers reweave knitting system , reduce materials loss .
11. Whole-process Computer Control, Keyboard Operation And Textile Dimension Design.
12. Operation Is Convenient, Personal Control Ratio is High And Labor Intensity Is Low.
13. Adopting Frequency Conversion And Running Smoothly.
14. Inlaid Neilsbed, Sedimentation-piece Device And Making Textile More Elastic And Comfortable.
15. Double Color And Air-spraying Device And Making Textile More Slap-up.
16. Automatically Stop Device Of Thread-break, Count And Electrical Machinery Overload And Reducing Knitting Damage.
17. Adopting Pump Oil-providing Device And Keeping Good Lubricate Character.

Note :

Due to keeping innovation,
the specification and
Machine pictures or color
