

Mechatronics Training Series (FA Series)

DLDS-555B Optical Mechatronic Training System

Overview

• The system is composed of aluminum workbench, control part, transport and test unit, manipulator unit and sorting unit.

Technical Parameter

- Dimension : 1500*750*1750mm.
- Input power : Single phase, AC220V±10%, 50Hz/60Hz.
- Output power: AC 220V safety socket output DC 24V safety terminal output.
- Capacity : ≤500VA.

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

DLFA-555C Optical Mechatronic Training System

Overview

The electronic control part of the system is push-pull style. The actuator unit is same to DLDS-555B.
