

Pneumatics Training Series **DLQD-DP101 Basic Pneumatic Training System**

Note :
Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

Overview

- The system is composed of workbench, silent air compressor and various pneumatic components. All the components are industrial components. Each component with quick connector to be an independent module which can build pneumatic circuit on the aluminum panel

Technical Parameter

- Dimension :1360×650×1650mm
- Input power :Single-phase, three-wire AC 220V±10%
50Hz/60Hz (For air compressor)
- Capacity :<1.0KVA
