

Pneumatics Training Series

DLQD-DP201 Basic Electro Pneumatic Training System

Note :
Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

Overview

- The device increased configuration on basic of DLQD-DP101 as follows:
Pneumatic components : solenoid valve control circuit
Control parts : button control circuit, relay
control circuit and various sensor Loop inductance
- The main application of the system is electrical control circuit with protection connect cable
