

Engine Teaching Board Series(Gasoline/Diesel)

■ Introduction

● The teaching board adopt automotive starting physical system. All components adopt original parts, QC strictly testified, in accordance with Production Quality Management standard of ISO9001:2008, suit for automotive starting system principle and practical training in the medium and senior vocational schools and car training institutions, satisfy the requirement of teaching training project on the automotive starting system structure and working principle etc.

Note :

Due to keeping innovation, the specification and Machine pictures or color are subject to alteration without notice!

■ DLQC-FDJ-Q001 Automotive Starter System Teaching Board

■ Feature

- Teach board can demonstrate working principle of vehicle starting system.
- Teach color engraved with colorful starting system schematics, equipped with detection terminal to detect the pin and various electrical components signal such as electrical resistance, voltage, current, frequency etc, strengthen the student hand-on ability.
- Teach board can demonstrate the starter disassembly and parts
- Teach board can setup fault and assessment (please refer to the detailed fault setting and assessment system introduction)

■ Technical Feature

- Support frame adopt imported panit special for car, high temperature coating, with anti-corrosion function
- Support frame material is welded with quality square tube(40*60*3mm)
- Size: 1300mm×580mm×1780mm

■ Basic Configuration

- Starter assembly, magnetic switch, starter rotor, reduction gears, brushes, relays and fuse box, battery, training panel, mobile bench and universal casters, ignition key, general power switch, ignition switch, instruction manual and user guide book etc

■ Training Content

- Starting system sctructure and composition training
- Starting system Schematics analysis trainging
- Starting system troubleshooting and confirm training
- Starting system fault setting and exclusion training
- Starting system practical operation and theoretical exam training
