

Multi-Function Membrane Press Machine MP 2580H

Note :
Due to keeping innovation,
the specification and
Machine pictures or color
are subject to alteration
without notice!

Function:

it is used to work with various high-profile PVC, hot transfer and single veneer. the products are of high quality, and will not peel off. the line and groove is clear.

Features:

1. machine frame is made up of 6 whole pieces of amor plates excavated and processed which are 25mm without deformation.
2. running of working table takes chains companied frequency transformer, starting in low speed, running high and low speed to end, which prevent the work piece moving.

3. "DELTA" PLC controller is used for operation system, and touch-screen automatically convenient to control.
4. vacuum pump made in china with gemany technology straight-through theory: good working, and easy maintenance.

5. take "Schneider" 0910, 2510 contractor, "Weider miller" intermediaterelay, and "DELTA" DVP-32ESO. Others take Chinese.

6. with theory of plug-in mounting, Taiwan "compass" hydraulic system ru promptly with large capacity, and seldom break down, use 5 s to load hydraulic pressure which improve working efficiency.
