

I. Overview

This training set include various of induction motors, students can be familiar with various types of induction motors features, control principles, and knowledge through training and experiments. It is suitable for students in vocational schools, technical schools, colleges.

II. Consisted components

- (1) Single phase capacitive motor (with centrifugal switch)
- (2) Three phase mouse cage type asynchronous motor
- (3) Three phase wind asynchronous motor
- (4) Three phase synchronous motor
- (5) Three-phase double speed motor
- (6) Contactor, button, K4 electrical cables
